PROJECTS

ELECTRICITY BILLING

The aim of our project is to generate electricity bill, display minimum and maximum electricity consumed owner details and sort the owners details based on power consumption

RESTAURANT RECOMMENDATION SYSTEM (RRS)

This system helps the user to find restaurants based on the location chosen and their choice of cuisine. Further more the restaurants are displayed along with menu and a map link to help the user locate the restaurant easily.

CERTIFICATIONS

Passed the course "Introduction to Networks" by NetAcad, cisco
